

EMBO supports life scientists at all career stages, stimulates the exchange of scientific knowledge and helps build an environment where scientific research thrives:

Membership

More than 1,800 EMBO Members represent some of the best life scientists in Europe and worldwide

EMBO Courses & Workshops

provides funds to the organizers of about 90 scientific meetings per year that attract more than 11,000 participants

EMBO Young Investigators

Group leaders in the early stages of setting up their own independent laboratories who receive funding, networking opportunities, training and access to EMBL's core facilities

Installation Grantees

Young group leaders from six participating EMBC Member States who receive grants to set up their labs in those countries

EMBO Long-Term Fellowships

fund postdoctoral researchers for up to two years fostering their international mobility

EMBO Short-Term Fellowships

fund transnational research exchanges of up to three months between laboratories

EMBO Lab Leadership Courses

deliver training to life scientists worldwide in leadership, project management, writing scientific papers, and other topics

EMBO Press

Publishes five leading journals: The EMBO Journal, EMBO Reports, Molecular Systems Biology, EMBO Molecular Medicine and, together with Rockefeller University Press and Cold Spring Harbor Laboratory Press, Life Science Alliance

EMBO programmes and activities are funded by

50 **EMBC**
years
